

Boerne ISD has new safety plan for buses

David Uecker, Director of Transportation has taken a bold step to **PREVENT STOP ARM VIOLATIONS** for the **Boerne ISD** school buses.

We commend Mr. Uecker

– He has taken positive steps to ensure the safety of our kids.

Boerne ISD decided to install the **AdComp Systems-Transport Track** Wireless Digital Recorder.

The wireless, windows-based DVR not only helps maintain discipline inside the bus, but now, with the Stop Arm Camera installed outside the bus, it's done a wonderful Job disciplining motorists that want to disregard the extended Stop Arm of a school bus.

We invite you to take a closer look at Mr. Uecker's DVR of choice
