## GREENVILLE ISD TRANSPORTATION

For the past 3 years, Greenville ISD has been using the Transport Track wireless, windows based DVRs. We would like to take this opportunity to congratulate AdComp on a job well done.

Greenville ISD was an early adopter of AdComp's technically advanced system and we are happy to say that, AdComp has provided us with some great service over the years. The ability to remotely monitor the DVRs via the Auto-Check reports has been invaluable in making sure that the systems are functional at all times.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jim Hart', written in a cursive style.

**Jim Hart**  
Director of Transportation
